

Looking for a career change? Think about **Logistics ...** **at no cost to you!**

Did you know your car, clothes, electronics and food all used logistics to get from the manufacturer to you? That's Logistics – The efficient flow and storage of goods from their point of origin to the point of consumption.

HCC Southeast College has a new 32-hour "fast-track" Logistics program.

Enroll Today! Classes are Mondays/Thursdays and Tuesdays/Fridays from 6:00 p.m. to 9:00 p.m.

Certified Logistics Associate (CLA) LMG1170

Major topics include:

- Logistics environment
- Quality control principles
- Understanding the lifecycle of global chain logistics

This course is a prerequisite for the second level, Certified Logistics Technician course (CLT).

Certified Logistics Technician (CLT) LGMT 1271

Major topics include:

- Product receiving
- Packaging and shipment
- Inventory control
- Safety principles and safe equipment handling
- Workplace communications, teamwork and problem solving skills

These classes will prepare you for CLA and CLT certifications, which are industry validated, nationally recognized certifications from the Manufacturing Skills Standards Council (MSSC).

HCC Southeast College will work with business and industry to assist students with employment.

Possible career opportunities include:

- Transportation
- Warehousing
- Material Handling
